## NEW PAYING MONTANA MINES.

GOLD, SILVER AND COPPER PROP-ERTIES SHOW UP WELL.

The Boston Con. of Utah Is Making Good Profits-Season's Output in Tanana District Put at \$7,000,000 Great

Activity in the Camps of the Black Hills. HELENA, Mon., Nov. 15.—The Howard mine, three miles south of Helena, is, after dividend payer. The property, which has heretofore been called the "specimen" mine, because of the unusually rich gold ore found in pockets, which netted barely enough to pay running expenses, has disappointed not a few leasers and investors, only to finally abaidon the work. Then another would take the property and encounter a rich streak of veritable chunks of gold, only to encourage further work, which would eat up the profits. But the present owners, C. A. Sheldon and a Mr. Larson of Canada, have struck a vein twenty feet wide of decomposed ore which assays from \$8 to \$15 a ton.

High grade ore has been found in the three properties of the Montana Scotch Bonnet Copper and Gold Mining Company in the New body is well defined between walls of porphyry and copper trap rock. The croppings are 800 feet wide and is a heavy copper-gold

Helena men have struck it rich in the properties of the South Bend Mining Company, near Rimini. Some ore from the mines brought to Helena shows that it is filled with the Peerless Jennie, which they adjoin, that

It is reported on reliable authority that there has been an enormous body of copper ore opened up at the copper mines at lava. Mont. eighty miles east of Kalispell, near the Great Northern line. These properties have

It has been learned that the property in the Zortman district taken over by Thomas F. Ryan of New York, on his recent visit to Montana, was the Ruby Gulch This mine, which is evanide in character, has been producing at the rate of nearly \$20,000 a month. Butte, Nov. 13.—In his annual report to Gov. Toole, W. B. Orem. State mining inspector for the Butte district, says that during the year ended with the first of November the mines of the district employed constantly 10,000 men -8,000 under ground and 2,000 on the surface—and the wages paid them amounted to more than \$1,000,000 a month. Ide also reports that 14,200 tons of ore are daily hoisted from the Butte mines, the Amalany hoisted from the Butte mines, the Butte Butte mines of the Cariboo Consolidated Company, capitalized for \$5,000,000. It has the previous in the Cariboo Consolidated Company, capitalized for \$5,000,000. It has the previous in the Cariboo Consolidated Company, capitalized for \$5,000,000. It has the previous in the Cariboo Consolidated Company, capitalized for \$5,000,000. It has the previous in the Cariboo Consolidated Company, capitalized for \$5,000,000. It has the previous in the Cariboo Consolidated Company, capitalized for \$5,000,000. It has the previous in the Cariboo Consolidated Company, capitalized for \$5,000,000. It has the previous in the Cariboo Consolidated Company, capitalized for \$5,000,000. It has the previous in the Cariboo Consolidated Company, cap It has been learned that the property in the Zortman district taken over by Thomas gamated companies contributing 10,000 tons, Heinze, 1,400 tons: Clark, 1,350 tons; North

daily hoisted from the Butte mines, the Analgemanded companies contributing 16,000 tons, Heinze, 1,400 tons. Clark, 1,330 tons, North Butte, 700 tons, and miscellaneous mines, 750 tons. In the opinion of the inspector, the mines of the fossion and Montana Company fing they have been amount the greatest producers of the district for many years.

F. A. Heinze and his associates have organized a copper securities company with a capital of \$10,000,000, and it has acquired \$2,000,000 shores of the common stock of Later of the concentrating plant at Besin. It is the prediction of Mr. Heinze and the expectation of may mining men that in the cuirse of a few years the Laximoton strong will be about the concentrating plant at Besin. It is the prediction of Mr. Heinze and the expectation of may mining men that in the cuirse of a few years the Laximoton strong will be about the tons of ore a day.

The Relmont mine, one of the new Heinze properties, continues to improve, and is shipping about 160 tons of ore a day.

SALT LAIN 13.—President Samuel Swhouse of the Island of the shared the company has opened 52,000,000 to for a day.

SALT LAIN 14.—President Samuel French of the Island of the shared the says he is confident the company and arm an 8 per cent. dividend on the shares at \$100. He adds that in the last six months in three tunnels the commany has opened 52,000,000 tons of 2 per cent. copper ore in the porphyry. The property is now producing 250 tons per day of \$10,000 a month when the smeller goes into commission on May 1.

The Talisman, a few miles from Milford Benver county, has \$50,000 when the fore recently encountered in twe lower workings of the Mercal of the shaff of the Mountain Company and the wall of the shaff of the Mountain Chief in Big Cottonwood Ceñon at a depth of 125 feet.

The Large body of gold ore recently encountered in the lower workings of the Mercal of the shaff of the Mountain Company and the same trans the second of the shaff of the Mountain Company and the same trans the second of the shaff o

COLORADO.

COLORADO. greement on a practical plan has given a new impetits to mining in the great camp.

The St Joseph Mining and Milling Company in pitch and the St. Joseph Celestine and Macochie claims near the Silver Age guich, daho Springs district. The St. Joseph mine way years ago was in a vein carrying 21 percent uranium. The consideration was \$50,000. The twenty stamp and concentrating mill of the Washington property on Nigger Hill. Preckenridge district, will soon start after a hutdown for doubling its capacity.

The Anaconda mill is now treating 75 tons of 80 ore daily, which is an improvement

of \$6 ore daily, which is an improvement from \$4 and \$5, recent records. During the last month 2.300 tons were treated, the ore coming from the Anaconda estate.

The Cash mine at Magnolia, Boulder district, is in a body of high grade ore which enables the company's eyanide mill to work full time.

A contract has been let to drive the Pioneer tunnel in Moon guich, Central City district, a considerable distance. The silver mine, adjoining has been leased to Denver parties, who will begin development at once.

CALIFORNIA.

calleornia.

12.—The new smelter CALIFORNIA.

San Francisco, Nov. 12.—The new smelter of the Mammoth Copper Company at Kennell. Shasta county, is running as smoothly as though it had been in service for years. Not a moment has been lost and the guaranteed capacity of 250 tons per day has been exceeded by fifty tons. The second furnace has not yet been blown in as the company is waiting for enough ore to be accumulated to guard against, any stonpage. The shipments of matte go to the Utah refluery. The Tamarack group of mines near Copper City, Shasta county, have been bonded by the Bully Hill Company for \$10,200.

rack group of mines near Copper City, Shasta county, have been bonded by the Bully Hill Company for \$10,000.

In Soledad Cafon, Los Angeles county, a company of Los Angeles capitalists has begun dredgir goperations. In early days the placer claims of Soledad yielded large returns, and it is expected that careful dredging with bring big dividends.

Seven tons of assorted ore have been sent from Masonic Mountain in Mono county to the Reno smelter. This ore is from a ledge that assays \$200 per ton, and, being carefully gesorted, it will rum considerably above that figure. The ledge has widened from eight inches to four feet. The claim is in the new camp of Lorena, in the Masonic Mountain district, near the Nevada border. The place has a population of 100 and is growing rapidly. In Butte county at Cherokee a company is working ground for diamonds, of which many have been found after heavy raiss. The most valuable stone discovered was valued at \$1,200, the others ranging from \$20 to \$100. Most of the stones are yellowish, but a few are pure white.

NEVADA.

STATION AND SINKING MINING PUMPS.

THE SLOGAN OF THE CAMERON—
"CHARACTER THE GRANDEST THING."

Over 40,000 CAMERON pumps in daily saitsfactory use all over the world give tangible proof
of their merit and confirm the claim for their
superiority over all others. They are conceded to
be the most durable, reliable and effective mining
sumps on the market to-day, and while often imtated are never equalled. For proof, inquire of any
mining engineer; for the latest catalog "C" and
prices, write any of our resident agents or direct
to the the S. CAMERON STEAM PUMP WORKS.
Poot East 25d St., New York City, U. S. A.

from \$23 to \$2,100 a ton. Near the ledge is an old shaff with rotten timbers, showing the bill was prospected a quarter of a century Che Kendall mine of Goldfield is producing fabulously rich ore. Five tons were sacked and taken to Tenopah which will average from \$2 to \$3 per handful. The new strike at Clifford Hill, near Tono-pah, is developing ore that is full of free gold. James Gleason, who came in from the camb, brought ore that assays \$100 per ton in gold.

James Gleason, who came in from the came, brought ore that assays \$100 per ton in gold.

ALASKA.

SEATTLE, Nov. 13.—The mines of Tanana are credited this season with an output of \$7,000,000, or about the same as the Klondike districts. This estimate was made early in the season, and it has held good. The friends of the district who have remained steadfast have ventured the prediction that these mines will yield a round \$10,000,000 the coming year, and they are putting the district in solendid order. This will be in excess of all other districts. The valley in which these mines are lecated is 200 miles long by 50 miles wide, with agricultural possibilities only second to its gold. The estimate of its gold yield is exceedingly conservative, and the miners have signified their determination to stay with the camps in the most tenacious manner. A regular line of steamers remains on the route all winter between Seattle and Seward, carrying men engaged in railroad construction. They keep the force up to 2,000 to 2,500 and are pushing work as rapidly as possible.

The creek yielding the highest returns in this district is known as Eureka. This produced \$1,000 per day to the man. This is known to the miners as Kantishna Valley, and they are firmly impressed with the belief that they will take out more clean gold than has ever been mined in the north. But little has been written or said about this part of the country, and the same quiet tactics will be maintained in the future.

The reports from the new gold discovery on Chichgoff Island, southeastern Alaska, still continue of the most cheerful character, the ore going from \$2,000 to \$20,000. There is quite a stampede, but the excitement has abated somewhat. The natives are quite interested, and they have been able to find some very handsome samples.

In southeastern Alaska some very rich quarty ledges, baye here discovered carrying

interested, and they have been able to find some very handsome samples.

In southeastern Alaska some very rich quartz ledges have been discovered, carrying high gold, silver and lead values. These are from 500 to 3,000 feet from tide water, and by reason of the richness of the velns and their proximity to the water are unusually attractive.

WASHINGTON.

Mont., eighty miles east of Kalispell, near the Great Northern line. These properties have been idle for nearly eight years, and all the work that has been done on them has been the assessment work. F. G. Erb, who is manager and owns an interest with Eastern parties, has obtained the entire group, and they are working both night and day shifts on two of the main properties. He says that it is among the best showings in the State for the amount of work done.

Parchen and Keefe of Helena have bonded to M. Stagmiller of Escanaba, Mich., the Penn Van and Blue Bird mines, near Corbin, for an amount in six figures, it is understood. The mines are well known old time producers. It has been learned that the property in REITISH COLUMBIA.

IN THE BLACK HILLS.

KEYSTONE, S. D., Nov. 10.—There never was a time in the history of this camp when there was more activity among the old and new mines as at the present. A contract has been let to James Hartgering of Deadwood for a 100 stamp mill on the Bullion property, work upon which will commence within two weeks. This property has an immense vein of free milling and concentrating ore, which adjoins the famous Keystone Holy Terror raine. IN THE BLACK HILLS.

Black Hills.

HILL CITY, S. D., Nov. 10.—A copper mine is sure to be opened up east of this city in the old famous Blue Lead property. John Harnan, one of the original locators of the famous Portland mine of Cripple Creek, has control of this company, having recently acquired the stock of the Maloney interests. A tunnel over 1.700 feet was run in to encounter the main ore vein and an immense mineralized belt was passed through, carrying copper, nickel and some gold.

Adjoining the Blue Lead proper is the Calumet-iccla, which is owned by Llma, Ohio, p. e.le. This company already has a smelter built which is intended to handle the surface ore from the property.

E. C. Johnson, president of the Gerty Tin Mining Company, is still struggling with the tin proposition. He is getting his stamp mill in order for the test run of the and gold ore which he will take from the old Gerty mine. This tip ore will average more than 3 per cent, to 4 per cent, and at the present price of tin it will be worth much more than a gold mine. The mill has been built almost entirely by local contributions.

The famous Clara Bell mine, now controlled by Cleveland people, is destined to astonish the mining people of the West. The immensely rich vertical vein of gold ore which has been worked down to the 200 foot level has again been encountered at the 300 foot level, and the ore is richer than ever.

FINANCIAL NOTES.

N. W. Harris & Co. are offering to investors \$500,000 refunding mortrage bonds of the Laclede Gas Light Company of St. Louis.

T is easy enough to produce mildness in fine Turkish cig-

and most highly aromatic leaf; but this does not make a satisfactory and high-quality cigarette. By taking the heaviest and lightest leaf obtainable, such as is used in

MURAD

CIGARETTES

it is possible to produce, by perfect blending, a cigarette mild as the mildest, yet rich as the richest. The secret lies in the blending. It is

not possible to do this off-hand or after the average expert's experience.

It took me sixteen years, during which I had the advantages of thor-

ough equipment, countless experiments, and the continuous criticism of

the connoisseurs of Turkey, considered the highest critics in the world.

14000 Western Md 4s. . . . . COURT LETS POLICEMAN GO Who Was Taken in a Raid on an Alleged Oplum Joint.

Policeman Gilmartin, who was arrested in an alleged oplum joint in Stuyvesant street on Saturday, was arraigned in the Yorkville police court yesterday with the other persons caught there. Capt. Mc-Dermott made a short affidavit charging Rosie Schwartz and Frank Mett, two of the prisoners, with keeping a place for smoking opium. There was no charge against the policeman and another man and two women who were arrested at the

time.
Roundsman Maher of the Costigan squad asked Magistrate Breen to post-pone the examination of Mett and the Schwartz woman until Wednesday, so that an analysis of the supposed opium

might be made.

"Your Honor, I want to make a statement about this," spoke up Gilmartin.

"Shut up. There's no charge against you.
You're all right," whispered several policemen of the Fifth street station who stood. near by. Gilmartin used to be in that precinct. His former fellow policemen pulled at his coattails until he changed his mind about talking.

The Magistrate adjourned the examination as requested and disoharged the policeman and the other prisoners against whom there was no charge.

FIVE MINUTE TOBACCO CURE Good Also Against the Demons Baschall, Theatre and Dancing.

The Rev. John Calvin Knox, a Presbyterian clergyman of Luzerne, N. Y., spoke yesterday afternoon at the old McAuley Mission in W ter street, where he was converted twenty years ago. As his name would indicate, Mr. Knox's mother intended him for the ministry, but he arrived at it the longest way round. He was drunkard-a bum, as converts delight to say in their talks at the mission-but McAuley's story converted him and he started out to make an honest living by washing dishes eighty-four hours a week for 50 cents and his board.

Mr. Knox's story was so interesting and candid that other converts almost quarrelled for the privilege of the floor that their experiences might be heard by the nerse neophytes. One speaker said that wasn't converted in McAuley's, but the he would walk ten miles any day to atte

a prayer meeting.
"I was converted not only from run but from all other evils," he said. "Afte I had been enabled to banish whiskey evil. In just five minutes my taste for the weed was gone. In the same way I got rid of the demons basefall, theatre and dancing. And yet I hear that there are dancers among the church people of this city."

"The woods are full of them," said Brotier

STABS FATHER AND DAUGHTER. Baker Attacked When He Asked Creditor to Pay a Bill of \$2.

PATERSON, N. J., Nov. 19 .- Angelo Puglia. a baker of 40 Ellison street, and his daugher Lizzie, aged 20 years, were stabled late

Lizzie, aged 20 years, were stablied late last night by Manro Pacelli. Puglia was stabbed in the left side. His daughter was stabbed in the leg. Pacelli was arrested after a long chase.

The attack on Puglia grew out of a bill for \$2 owed to him by Pacelli. The latter passed Puglia's place and the baker wanted to know when the bill was to be paid. After words Pacell drew out a stiletto and stabled the baker, who fell to the ground. He the baker, who fell to the ground was about to finish the job when he grabbed about the neck by Puglia's daing the struggled with Pacelli and to free self he stabbed her twice and then made of

ROOSEVELT CHANGES HIS MIND. Decides Not to Reappoint Alabama U. S.

Marshal and Calls for a New Name. MONTGOMERY, Ala., Nov. 19.-A sensation was created by the announcement that the President would not reapport. J. Bryan United States Marshal, as had announced he would do several dage, and that he has called on Judge Thom G. Jones of the Federal court; to name successor to Bryan. It is understood by that Judge Jones had named James. Judkins, now Assistant United States Distractions of the resident Attorney, an old Confederate soldier. La stanck Republican for the resident.

The List of Referees. The following is a list of referees appointed in cases in the Supreme Court last week
